“We have enjoyed successful, exponential results from Kim’s service. She has taken our small home-based business and product line from rough and pedestrian to polished and professional. She approached everything we threw her way with enthusiasm, planning and thought. She worked with us to design an integrated identity and brand, from packaging and print collateral to website. Early mornings or late nights, she worked with us as if we were her only client. She is a talented asset for any team or business. Thank you Kim for your amazing talent and dedication!”
